the foundation of great system performance

# M3X ISOLATION BASE

“The M3X Isolation Base is a no compromise product. It is designed to allow your audio system to achieve its full potential so you can completely enjoy the presentation of your favorite performances. It is built with carefully selected materials using exceptionally high manufacturing standards so it will always look and perform as perfectly as the day it left our factory.”

*Michael Latvis, Chief Engineer  
Harmonic Resolution Systems Inc.*

The **M3X Isolation Base** is the latest generation of reference level isolation bases from Harmonic Resolution Systems. It is manufactured from six different materials including two proprietary polymers, billet machined aircraft aluminums, and polished black granite. The M3X load range is matched to the component weight for maximum performance and can be modified in the future to preserve initial investment. The M3X is the result of more than a decade of research and development into achieving true reference level audio system performance.
