MXR AUDIO STAND

the foundation of great system performance

MXR AUDIO STAND

“The MXR Audio Stand is designed to give you reference level HRS performance and the luxury of a hand-crafted exotic finish. The MXR Audio Stand can be built in any finish you desire creating a one-of-a-kind masterpiece from real exotic wood veneers. Whether you are selecting one of our recommended finishes or working with us to select an exotic finish specifically for your home, there is no detail left to chance when building the HRS MXR Audio Stand.”

*Michael Latvis, Chief Engineer
Harmonic Resolution Systems Inc.*

The **MXR Audio Stand** is an industry leading design that eliminates noise revealing a new level of musical performance. The frame itself is manufactured from six different materials including billet-machined aircraft aluminum and exotic finishes over a 75-layer Baltic Birch ply core. The highly acclaimed HRS isolation bases load directly into the MXR frame as the shelf system. The MXR frame optimizes isolation base performance while offering unique flexibility and functionality.
