

HARMONIC RESOLUTION SYSTEMS
SXRC AUDIO STAND

a low noise floor is fundamental

SXRC AUDIO STAND

“The SXRC was designed in response to HRS customers who wanted to vertically stack their large amplifiers to save floor space in their listening room and to achieve excellent performance. HRS took this request to heart and developed the SXRC series which can support every amplifier in the world in any quantity and configuration desired by our customers.”

*Michael Latvis, Chief Engineer
Harmonic Resolution Systems Inc.*

The patent pending **SXRC** Audio Stand was created to provide exceptional broadband noise reduction while having the capability of supporting even the largest of amplifier designs. It was developed based on technical concepts and technology derived from decades of experience with high performance audio stand design. It is an innovative, beneficial and complementary addition to the SXR Series. The modular frame concept is manufactured from billet-machined aircraft aluminum with a built in resonance control system.

HRS SXRC Audio Stand Physical Characteristics

The SXRC Audio Stand can be configured to support every amplifier in the world. Please consult your authorized HRS sales agent to determine the best configuration for your system needs.

**Infinite configuration options
(customize your system)**

**Unlimited load capacity for
even the largest amplifier designs**

**Can be configured or expanded
vertically to support multiple
amplifiers in same frame system**

**Designed to optimize
performance of HRS Isolation
bases designed specifically for
each amplifier model**

**Can be re-optimized at anytime
in the future for different
amplifier models**

Harmonic Resolution Systems (HRS) industry leading performance is derived from decades of engineering experience with audio, defense, and aerospace systems. All products are manufactured in the US by skilled craftsmen using superior techniques, exotic finishes, and proprietary materials. HRS is dedicated to producing the finest audio products in the world.
