

HARMONIC RESOLUTION SYSTEMS  
SXRC AUDIO STAND

a low noise floor is fundamental

# SXRC AUDIO STAND

“The SXRC was designed in response to HRS customers who wanted to vertically stack their large amplifiers to save floor space in their listening room and to achieve excellent performance. HRS took this request to heart and developed the SXRC series which can support every amplifier in the world in any quantity and configuration desired by our customers.”

*Michael Latvis, Chief Engineer  
Harmonic Resolution Systems Inc.*

The patent pending **SXRC** Audio Stand was created to provide exceptional broadband noise reduction while having the capability of supporting even the largest of amplifier designs. It was developed based on technical concepts and technology derived from decades of experience with high performance audio stand design. It is an innovative, beneficial and complementary addition to the SXR Series. The modular frame concept is manufactured from billet-machined aircraft aluminum with a built in resonance control system. The SXRC Audio Stand can be configured to support every amplifier in the world.

## HRS SXRC Audio Stand Physical Characteristics Sizing Matrix

Model	Dimensions (w x d x h)		Isolation Base Size			Std. Number of Isolation Bases
	in	cm	in	cm		
SXRC-1521-2-1V	21.2 x 21 x 7	53.8 x 53.3 x 11.4	15 w 21 d	38.1 w 53.3 d	1	
SXRC-1921-2-1V	25.2 x 21 x 7	64 x 53.3 x 11.4	19 w 21 d 48 w	53 d	1	
SXRC-2123-2-1V	27.2 x 23 x 7	69.1 x 58.4 x 11.4	21 w 23 d 53.3 w	58.4 d	1	
SXRC-2127-2-1V	27.2 x 27 x 7	69.1 x 68.6 x 11.4	21 w 27 d 53.3 w	68.6 d	1	
SXRC-2327-2-1V	29.2 x 27 x 7	74.2 x 68.6 x 11.4	23 w 27 d 58.4 w	68.6 d	1	

Note: All SXRC models are available in black or silver finish. SXRC frame width is available in 15", 19", 21", and 23". SXRC frame depth is available in 21", 23", and 27". Using this matrix of dimensions, HRS can configure a custom SXRC system specifically for the size of your component. Please consult your authorized HRS dealer to determine the best configuration for your system needs.

**Infinite configuration options  
(customize your system)**

**Unlimited load capacity for  
even the largest amplifier designs**

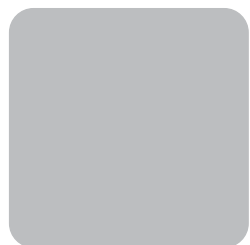

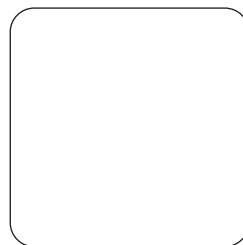

**Can be configured or expanded  
vertically to support multiple  
amplifiers in same frame system**

**Designed to optimize  
performance of HRS Isolation  
bases designed specifically for  
each amplifier model**

**Can be re-optimized at anytime  
in the future for different  
amplifier models**

Harmonic Resolution Systems (HRS) industry leading performance is derived from decades of engineering experience with audio, defense, and aerospace systems. All products are manufactured in the US by skilled craftsmen using superior techniques, exotic finishes, and proprietary materials. HRS is dedicated to producing the finest audio products in the world.
