

HARMONIC RESOLUTION SYSTEMS M3X2 ISOLATION BASE

a low noise floor is fundamental

M3X2 ISOLATION BASE

“The M3X2 Isolation Base is a no compromise product. It is designed to allow your audio system to achieve it’s full potential so you can completely enjoy the presentation of your favorite performances. It is built with carefully selected materials, using exceptionally high manufacturing standards, so it will always look and perform as perfectly as the day it left our factory.”

*Michael Latvis, Chief Engineer
Harmonic Resolution Systems Inc.*

The **M3X2 Isolation Base** is the latest generation of reference level isolation bases from Harmonic Resolution Systems. It is manufactured from six different materials including two proprietary polymers, billet-machined aircraft aluminum and polished black granite. The M3X2 load range is matched to the component weight for maximum performance and can be modified in the future preserving its value. The M3X2 is the result of more than a decade of research and development into achieving true reference level audio system performance.

M3X2 Isolation Base Physical Characteristics

Model	Dimensions (w x d x h)		Weight	
	in	cm	lb	kg
M3X2-1419	19 x 14 x 3	48.3 x 35.6 x 7.6	37	16.8
M3X2-1719	19 x 17 x 3	48.3 x 43.2 x 7.6	43	19.5
M3X2-1921	21 x 19 x 3	53.3 x 48.3 x 7.6	52	23.6
M3X2-1923	23 x 19 x 3	58.4 x 48.3 x 7.6	54.8	24.9
M3X2-1925	25 x 19 x 3	63.5 x 48.3 x 7.6	62	28
M3X2-2123	23 x 21 x 3	58.4 x 53.3 x 7.6	60.3	27.4

NOTE: Wide range of custom sizes available for turntables & amplifiers.

NOTE: The M3X2 is available in black or silver finish.

Each HRS Isolation Base includes either our Broad-Band Isolation Feet (SF), our Extended Low Frequency Feet (LF), or our Bi-Directional Noise Reduction Feet (G7). The selection of the footer type is made to optimize the performance of each component. You can also adjust or change the footer type on each isolation base at anytime to keep your system at peak performance.

- SF:** HRS Broadband Isolation Feet – Excellent starting point for tube amplifiers, tube pre-amplifiers, DAC’s, phono pre-amps, and many turntables.
- LF:** HRS Low Frequency Feet – Use for non-suspended turntables and when subsonic content is present and presents a potential feedback issue with the system.
- G7:** HRS Bi-Directional Noise Reduction Feet – Transfers and dissipates energy coming to and from the component. Used for solid-state power supplies, power conditioners, tape machines, vacuum pumps, solid state amplifiers, and solid state pre-amplifiers.

G-Link: The G-Links act as an ideal interface between the HRS G7 Bi-Directional Noise Reduction Feet and any floor where you do not already have an HRS frame system.

The M3X2 is available in custom sizes and load ranges to accommodate every audio component in the world. Contact HRS for details about custom products.

Harmonic Resolution Systems (HRS) industry leading performance is derived from decades of engineering experience with audio, defense, and aerospace systems. All products are manufactured in the US by skilled craftsmen using superior techniques, exotic finishes, and proprietary materials. HRS is dedicated to producing the finest audio products in the world.

f @HarmonicResolutionSystems **harmonicresolutionsystems**

- Broadband noise reduction system maximizes performance**
- Highly effective on wide range of surfaces and structures**
- Low profile compact design minimizes space requirements**
- Standard and custom sizes ensure full system integration**
- Integrates directly into HRS audio stands without modification**
- Custom model available for every audio component in the world**
