

HARMONIC RESOLUTION SYSTEMS VORTEX

a low noise floor is fundamental

VORTEX

“The Vortex was developed in response to our belief that a new technology was required to achieve the best of what modern component design construction could deliver. The result and future is even better than we had hoped it would be. The HRS Vortex combined with our isolation base technology has unlocked the ability to properly drain and dissipate stiff component chassis noise while delivering broad band isolation from external structural noise. Welcome to a new age of HRS reference level performance.”

*Michael Latvis, Chief Engineer
Harmonic Resolution Systems Inc.*

The patent protected **Vortex** is designed specifically to obtain maximum performance from audio components created with a stiffer chassis construction. The Vortex is typically sold in a set of four consisting of 3 fixed and 1 adjustable unit, designed to be placed in direct contact with the chassis when used with an HRS isolation base. The Vortex patented design is comprised of custom materials developed by HRS to push the limits of resolution and dynamics without brightness, fatigue or high frequency noise.

US Patent No. 10,187,712

HRS Vortex Physical Characteristics

Model	Diameter Inches <i>cm</i>	Height Inches <i>cm</i>	Weight Grams
V-150 (fixed)	3.5" (8.9)	1.5" (3.8)	914
V-150A (adjustable)	3.5" (8.9)	1.5" (3.8)	916

**NOTE: Available
in silver finish.**

**HRS DEDICATION
TO MUSIC VIDEO**

**Specifically optimized for
stiffer chassis (metal plate and
billet-chassis construction)**

**Performance optimized for
use with all HRS isolation bases**

**Natural gimbal system ensures
intimate contact with chassis
at every location to maximize
energy transfer**

**Quickly dissipates chassis noise
resulting in increased musical
information & dynamics**

**Combine fixed & adjustable
Vortex to obtain intimate contact
at more than 3 locations
(4 or more for larger components)**

Harmonic Resolution Systems (HRS) industry leading performance is derived from decades of engineering experience in audio, defense, and aerospace systems. All products are manufactured in the US by skilled craftsmen using superior techniques, exotic finishes, and proprietary materials. HRS is dedicated to producing the finest audio products in the world.
