HARMONIC RESOLUTION SYSTEMS

G-LINK

Introduction

Thank you for purchasing the Harmonic Resolution Systems G-Link. When used properly, they will give you many years of superior musical or video signal reproduction. The HRS G-Link is designed to significantly reduce the negative impact of air and structure-borne vibration on your audio or video component performance. The G-Link is specifically designed for use with HRS Isolation Bases with G7 Feet, providing an excellent interface between the G7 Feet on any HRS Isolation Base model, and any surfaces other than an HRS Audio Stand. It will provide a true dissipative ground interface on any surface (stone, wood, carpet, etc.) for the G7 Feet. The G-Link should NEVER be used with the SF or LF HRS Isolation Base Feet, or on an HRS Audio Stand, as it will be unstable. The HRS G-Link, in conjunction with an HRS Isolation Base with G7 Feet, is a perfect match for the HRS Damping Plates, Nimbus, Vortex, and Helix products. While the G-Link and HRS Isolation Base work to significantly reduce structure-borne noise, the HRS Damping Plates, Nimbus, Vortex, and Helix products significantly reduce the harmful effects of airborne noise and structural resonance on your components.

Safety Instructions IMPORTANT!

Always remove all audio/video components from the HRS Isolation Base before setting it up on G-Links. Do not place the HRS Isolation Bases with SF or LF Feet on the G-Link. The G-Link is designed specifically for use with the HRS G7 Feet only. Using it with any other HRS Isolation Base Feet will make the structure unstable.

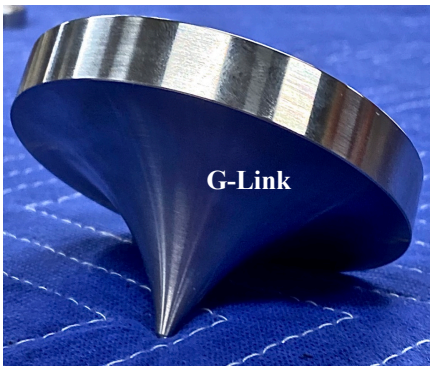

When relocating an HRS Isolation Base that is set up on the G-Link, ensure that the G7 Feet fully detach from the G-Link before lifting the Isolation Base. The G-Link can sometimes adhere to the bottom of the G7 Feet due to suction. To prevent this, release the suction on each G-Link before moving the Isolation Base. This will ensure that the G-Link does not separate from the Isolation Base unexpectedly during relocation.

Setup Instructions

The HRS G-Link should be centered and placed directly under each G7 Foot on the HRS Isolation Base. The HRS G-Link is designed to provide exceptional performance for all HRS Isolation Bases with G7 Feet that are not installed in an HRS Audio Stand. HRS Floor Protectors should be placed underneath the G-Links on surfaces you wish to protect against scratching.

Start with the G7 Feet completely threaded into the HRS Isolation Base. Place one G-Link under each of the G7 Feet. Check to make sure each G-Link is centered under the corresponding G7 Foot. Once all of the G-Links are in place, check to see if all four corners of the HRS Isolation Base are stable by pressing down on each corner separately. If the structure moves at all, slightly adjust one G7 Foot out, until it is completely stable. Do not use the G7 Feet to level the HRS Isolation Base, as they are not designed to be a global leveling system. Maximum performance will be achieved when three of the G7 Feet are threaded tightly against the bottom of the HRS Isolation Base, and (when necessary) the remaining G7 Foot is adjusted out to stabilize the structure.

Care and Maintenance

The HRS G-Link is a very low maintenance item that will provide many years of trouble-free performance by applying these basic care instructions. Clean the HRS G-Link with a lint-free, non-abrasive cloth. Use a damp cloth with water or mild soap if required. Do not spray with or immerse in water.

Warnings!

Do not place objects with sharp or pointed feet directly on the HRS G-Link, as they will produce an unstable support structure
Do not place HRS Isolation Bases with SF or LF Feet on the G-Link, as they will produce an unstable support structure
Do not use an abrasive cleaner or abrasive sponge to clean the HRS G-Link, as they may scratch the metallic surface.

Limited Warranty

Harmonic Resolution Systems warrants the product designated herein to be free of manufacturing defects in material and workmanship, subject to the conditions herein set forth, for a period of 90 days from the date of purchase by the original purchaser. **The purchaser is required to register the unit with Harmonic Resolution Systems by visiting https://avisolation.com/company-warranty/ and completing the limited warranty registration, within 14 days upon receipt of any HRS product. Scan QR code to register for HRS 5-year limited warranty.**

The limited warranty extends the 90 days to a period of 5 years from the date of purchase by the original purchaser, or no later than 6 years from the date of shipment to the authorized Harmonic Resolution Systems dealer, whichever comes first.

This limited warranty is subject to the following conditions and limitations.

1. The limited warranty is void and inapplicable if the product has been used or handled other than in accordance with the instructions in the owner's manual, abused or misused, damaged by accident or neglect or in being transported, or the defect is due to the product being repaired or tampered with or modified by anyone other than Harmonic Resolution Systems. The product must be packed and returned to Harmonic Resolution Systems by the customer at his or her sole expense. A written description of the defect and a photocopy of the original purchase receipt must accompany a returned product. This receipt must clearly list the model and serial number, the date of purchase, the name and address of the purchaser, the authorized HRS dealer, and the purchase price. Harmonic Resolution Systems reserves the right to modify the design of any product without obligation to purchasers of previously manufactured products, and to change the prices or specifications of any product, without notice or obligation to any person. This warranty is void and inapplicable if the product has been handled other than in accordance with the instructions specified within this document, abused or misused, damaged by accident or neglect or in being transported, or the defect is due to the product being tampered with, modified or repaired by anyone other than Harmonic Resolution Systems.
2. The limited warranty does not cover normal recommended care and maintenance. Harmonic Resolution Systems Inc. shall not be responsible in any way for consequential or indirect damages or liabilities resulting from the use of the product covered herein or resulting from any breach of this warranty or any implied warranty relating to said product.
3. Harmonic Resolution Systems shall not be responsible in any way for damage to finishes resulting from normal use, or exposure to sunlight or the environment, even within the normal and extended limited warranty period.

During the limited warranty period, Harmonic Resolution Systems will repair or replace any defective components free of charge. A Return Authorization Number (RA Number) obtained directly from Harmonic Resolution Systems is required before any product is returned to Harmonic Resolution Systems for any reason. This number must be visible on the exterior of the shipping container(s) for Harmonic Resolution Systems to accept the return.
Units shipped to Harmonic Resolution Systems Inc. without a visible RA Number on the exterior of the shipping container(s) are subject to be returned to the sender, freight collect.
Units to be repaired by Harmonic Resolution Systems must be sent shipping and insurance prepaid by the original purchaser in the original packaging material. A returned product should be accompanied by a written description of the defect.
Repaired units will be returned by Harmonic Resolution Systems shipping, and insurance will be prepaid by the customer.

All other warranties or conditions, either written or implied, are void.

(MADE IN USA)

All Harmonic Resolution Systems Inc. products are 100% Made in The United States of America by skilled craftsmen using only the finest materials and our personal dedication to the highest workmanship standards.
